

Emergency Alerts Fair

Thursday June 22, 2023 at 10:00am

Fireside Room

When an emergency strikes, you need immediate access to reliable and timely information. Discover the key websites and smartphone applications that will issue critical -- and even life-saving -- notifications and guidance in the event of an emergency.

The Emergency Alerts Fair will provide complete information about 5 recommended sources of information. AND, volunteers will be on hand to help you install the smartphone apps and/or set up your registration information.

The Rossmoor Emergency Preparedness Organization (EPO) and the Computer Club of Rossmoor are joining forces to sponsor this free event for all Rossmoor residents. We will provide information and setup instructions for these 5 applications:

- Rossmoor Nixle
- Walnut Creek's emergency alert system (WCAAlert)
- Contra Costa County's Community Warning System
- MyShake app, providing early warning of earthquakes with magnitude 4.5 or greater
- FEMA weather app

If you would like assistance with the registration process or the app set up, Computer Club and EPO volunteers will be available in the Fireside Room and the nearby Computer Center. Whether you use a PC (Windows) or Mac – or have an iPhone or Android smartphone – our volunteers can help! (Note: if you will be requesting assistance with an iPhone, you may need your Apple ID and password for the app installation ... so please bring it with you.)

We will also have handouts with instructions for those wanting to handle their own set up.

Questions? Contact the Computer Club at caccor@comcast.net or Fran Gibson at (925) 300-3687.
